COMMUNITY CHRISTMAS  
PROGRAM

The Christmas party held in the Town Hall on December 16th proved to be a success. In spite of the zero weather, many Islanders came with their children and delicious food.

First on the program was the pot-luck supper. Then Santa appeared to distribute the gifts, candy, oranges, and tangerines to all of the children. A few people remained to do the "cleaning-up" after the majority of the families had departed.

The organizations which sponsored this program were the V.F.W., Chamber of Commerce, Sportsman Club, P.T.A., and the American Legion from Sandusky.

Everyone who was asked cooperated to make the party a success.

NOTICE

We are sorry we forgot Ronald Ingram's birthday in our last issue. His birthday was December 12.

HAPPY BIRTHDAY TO

Rosalie Lenyo-----Jan. 1  
Darrell McKillips-----Jan. 7  
Bernadette McKillips---Jan. 10  
Nick Bianchi-----Jan. 10  
Geraldine Erne-----Jan. 14

Richard Navorska-----Jan. 28

The 4th, 5th, 6th Grade  
News

In our room the 6th grade is studying measures in Arithmetic. They are easy so far.

The 5th grade is studying fractions and the 4th grade is studying division. The 5th grade is having a little trouble and the 4th grade is having a lit-

tle trouble, too.

The 4th, 5th, and 6th grades library books have come and are good ones.

Our teacher gave the 4th, 5th and 6th grades maps to work on for Geography.

Jackie Betzenheimer brought some mud puppies to school.

Mrs. D.J. Schlesselman is teaching us while our real teacher is sick. We all think she is very nice.

Darrell had a birthday and brought some popcorn balls. We all had two.

Jackie is going to have a birthday the 31st of January.

The 6th grade class had a hundred in spelling last Friday and got to go home first.

The week before the 5th grade class got a hundred in spelling and got to go home first.

So far everybody is getting along very good. All of us are half way through our books.

7th and 8th Grade News

In Health we are studying about the parts of our body.

In Reading we are reading about the Supreme Court.

In Arithmetic we are studying about per centage.

In English we are studying about verb forms.

In Geography we are studying about the periods of our National growth.

The 7th & 8th grade class is cooperating very well with a bake sale once a month. We would like to think everyone who helped us. Next month we will raffle a starter set of dishes, a flash light and batteries, and a carton of cigarettes. The drawing will take place at the Valentine Supper, Feb. 14, 1952.

Raffle Tickets can be bought from any 7th or 8th grader, or you can mail your request for tickets if you are unable to contact the students, to Box 246.

Shirley Seeholzer and  
Nancy Bugel

### 9th & 10th News

**Civics** - In Civics we are studying about our governments, national and local, and the rights and duties of citizens in the United States.

**English** - In English we have been studying about our reading ability and the dictionary. We also had for extra activities the suffixes and prefixes of words.

**Biology** - In biology we have studied the control of diseases and are now studying the body.

**Algebra** - In algebra we are studying graphs, simple equations and working with plus and minus numbers.

### Geraldine Erne.

### 11th & 12th News

**English Literature** - In English Lit. we are now studying about "The Age of Romanticism, 1800-1840". We have just finished reading about "The Eighteenth Century, 1701-1800".

Some of the famous men we have been studying about are as follows. Daniel Defoe, Horace Walpole, Samuel Johnson, Ben Jonson, James Boswell, Shakespeare, Milton, and many others.

**Bookkeeping** - In bookkeeping we have been using workbooks. Some of the things we are studying about are - Ten Column Worksheets, Profit and Loss Statements, and the making of a Balance Sheet. Most of us have our work up to date but some are a few Chapters behind. Those who are behind are catching up very rapidly.

**Civics** - In Civics we have been studying about the governments of other nations and countries. We just finished studying about the State of Ohio.

### Home Economics Class

In Home Economics we have been kept quite busy sewing, and

### Home Ec. Cont.

making a note-book.

In class we have made something in almost every category. We have made pajamas, blouses, skirts, weskits, suits, sweaters, and cheerleading outfits.

Our note-books consist of seams, hems, and button holes, also parts of patterns and explanations of Notches, darts, tucks, & tailor tacks.

### P. T. A. News

The January meeting proved to be one of most interesting meetings. The program under the guidance of Mrs. Howard Brown was on the school lunch. The committee consisted of Mrs. Howard Brown, chairman, Mrs. Godfrey Schock, Mrs. Charles Martin, Jr., and Mrs. Calvin Moorehead. Mrs. Schock presented a healthful lunch. Mrs. Martin presented an attractive lunch. Mrs. Moorehead presented a variety in the lunch. Then Mrs. Brown gave the highlights of each of the other three. Several good suggestions were given by the members. Discussion followed with participation by all.

The improvement of the school playground is one of our many worth goals. Since the January Meeting we are glad to announce that we now have the ground equipment.

The president appointed the following committee: Mr. Charles Schnittker, general chairman; Mrs. Orville Lange, representing the primary grades, and the intermediate mothers (girls); Miss Shirley Maxim, representing the intermediate grades; Mr. Don Hughes, physical education advisor; Mrs. Robert Dauch representing the pre-school mothers; Mrs. Andrew Erne representing the primary mothers (girls); Mrs. John Bugel, representing the primary mothers (boys); Mrs. John Betzenheimer, representing the intermediate mothers (boys) and Mr. Floyd Hilliard, ex officio. This committee has the authority to

P.T.A. News Con't  
purchase one piece of play-ground equipment. We are hoping that it will be set up and ready for spring use.

If at a later date the P.T.A. is having a party or some other means of raising money, please help as much as possible. We feel certain that we are helping the community, but we need all the assistance we can get.

#### P. T. A. Awards

Following the example started last year, the Local Parent Teachers Association is again presenting awards to outstanding school students. These awards will be presented at the annual Commencement exercise in June.

The criterion will be based on courtesy, cooperation, leadership, personal appearance, reliability, and scholarship. With the five members of the

Kelleys Island school faculty selecting the winners.

Four awards will be given. One to each of the four, three grade groups. That is: one to grades one, two, and three; one to grades four, five, and six; one to grades seven, eight, and nine; and one to grades ten, eleven, and twelve.

In order to "keep abreast" with the times the awards will be of monetary nature. There will be a check drawn on the Parent Teachers Association for five dollars for each of the four winners. Also a certificate stating meritorious achievement.

It is the hope of the faculty and the Parent Teachers Association that by making the awards available the children will be inspired to do better work. Every child has an equal opportunity to win. They should not give up but be encouraged to win.

This fall the children of the Kelleys Island School took up a collection of money from the school children to be sent to Crystal Ann Dankelson. Here is a letter we received from Mr. and Mrs. Dankelson thanking us for remembering their daughter.

December 10, 1951

Dear Mrs. Lange,

We want to thank all the school children for the check which was sent to Crystal Ann.

It is nice to know she was remembered by the children of the Island school.

May God bless all of you.

Mr. and Mrs. Dankelson  
1018 King Street  
Sandusky, Ohio

#### 1st, 2nd, 3rd Grade News

We have been missing a lot of school since Christmas vacation as we have had a bad attendance. We must try to bring it up by being careful and not getting sick.

We are learning new songs and Renetta is playing for us. We want to learn about notes, time and lots of things in music.

The second grade have a new reader and workbook. The third grade could take a few lessons from them.

Danny wants to report that we are starting to learn the Alphabet. Most of the first grade learned the alphabet at home but so far we have just learned the sounds of letters to help us to learn new words.

We went down stairs and interviewed our little friends the first, second, and third graders. Here are three of the interviews.

My name is Vivian Beltz. I am six years old and in the first grade. My birthday is November 3.

My mothers name is Vivian and my fathers name is Paul Beltz. My daddy is thinking about getting a job with the Erie County Lumber Co.

My favorite food is apple-sauce. I like to do arithmetic and I like to play Red Rover. My boy friend is David Lenyo, but when I grow up I want to be a nurse.

My name is Rosalie Lenyo and I am in the second grade. I am eight years old and my birthday is January 1.

My mother is Mary and my dad is George. My daddy works.

I like to eat ice cream better than any other food. I like to read and play baseball. When I grow up I want to be a nurse. Jackie Betzenheimer is my boy friend.

My name is Donnie Bugel. I am nine years old, my birthday is May 31, and I am in the third grade. I was born in Sandusky.

My dad fishes. His name is John Bugel and my mother is Gertrude Bugel.

I like to eat food. I like to play hockey and do arithmetic. When I grow up I want to be a man. I have no girl friend.

## What Would Happen If?

Jimmy Erne would stop being our comedian? Can't anyone else act natural?

Every pupil missed as much school as the principal?

People would stop talking about the Seniors? They had better get used to it because next year there is only one Senior!

Some people on K.I. would stop talking about Mr. Hughes? Can't they find anyone or anything else to talk about?

One of the pupils told Mr. Hilliard he didn't care whether he caught pneumonia and died because he wouldn't have to look at him anymore? Well, what did he gain by saying that to the pupil?

Some good pencil sharpeners were put in school? That is, some that sharpen the pencils instead of eating them!

## J O K E S

from the Reader's Digest

### The Man Next Door

My wife says that when I take a notion to empty the ash trays I always convey the impression that I'm having to do most of the housework.

Things I'd like to have my doctor explain: Why a baby never sneezes unless he has his mouth full of cereal.

I believe in prayer; But my mother heard me once and said, "Son, don't bother to give God instructions; just report for duty."

### Marxmanship

"What kind of a cab do you drive?" Groucho Marx asked a radio contestant.

"A Yellow Cab."

"There's nothing yellow about the cabs in this town," Groucho quipped. "They'll attack anybody."

On a recent program, Marx admitted that the last time he got married he was so old that the guests didn't throw rice; they threw vitamin pills.

Work is the easiest way man has ever invented to escape boredom.
