Nurse Crosses Ice at Night to Care for Stricken Island Child

Special to the Star-Journal.

KELLEYS ISLAND, Jan. 28—An unusual trip on the ice and one which has not been recorded here in many years was made Friday night by Mrs. Hauser, Sandusky nurse, who crossed the lake from Lakeside to care for little Frank Brown who has been seriously ill with diphtheria since Sunday. The remarkable part of the trip was that it was made after dark, Mrs. Hauser, accompanied by Fred Martin, jr., Alex Betzenheimer and Fred Hauser, leaving Lakeside at 8:30 and reaching here at 10:30.

On Wednesday Dr. Sullivan of this place called Dr. Brindley of Port Clinton for consultation on the case, and this marked the first ice boat trip made to the mainland this season. Fred Hauser and Reuben Becker sailed to Lakeside to accompany the doctor here and made the return trip with him late in the afternoon. Mr. and Mrs. Frank Hauser of Saginaw, Mich., grandparents of the stricken child, have been called here.

count of his many patients here and because of the poor condition of the ice, Dr. Sullivan was unable to make the trip. On Thursday eight Kelleys Island men walked to Put-in Bay where they are working on the Catholic church which is being erected. Tuesday Albert Riedy won the distinction of being the first islander to skate to Put-in Bay this season.
